

GENOVA IGG

Please read the instructions thoroughly provided with this kit. Check your kit and call our office or the lab if anything is missing or damaged.

- **This is a serum blood kit that requires the facilities of a blood draw site.** We may have offered you suggestions when you were in the office. Feel free to find options more convenient to your location. If you are uncertain whether a particular facility will assist you in this call the facility and ask if they can do “Kit Draws,” and ask what they typically charge for those services. Rates vary, averaging \$50-\$60 per draw.
Note: Medicare will not cover the cost of a Kit Draw. The cost for this service will be out of pocket.
- Quest Labs and LabCorp no longer offer services for Kit Draws. Your local hospital lab should still do so, but best to call ahead to confirm.

BEFORE GOING TO THE FACILITY:

Step 1) Remove the cold pack from bottom of Styrofoam box and freeze it overnight.

Step 2) Once frozen, replace into box before heading to the blood draw facility to ensure the pack is frozen before you arrive.

Step 3) Once at the facility follow the instructions of personnel at the facility for kit hand-off to so they can complete the collection.

Ensure that the requisition and all accompanying paperwork are filled out and placed in the package before sealing.
